

## 2/259 PAANU

PAANU is the Finnish word for shingle and is a structure that transfers the principle of the shingle façade to concrete façades, right down to the smallest wooden fibre. The depth of detail that can be achieved in this way is particularly remarkable.

### DIMENSIONS

Uses	Dimensions (mm)	Order Number
100	▲ 1000 × ► 6000	C 2259

100-timer formliners are supplied in an individual dimension within the maximum indicated dimensions.

The specified widths of the 10-timer and 50-timer formliners are a fixed dimension and ensure the continuity of the structure in the case of linear patterns. The longitudinal direction of the pattern is variable and can be ordered from 1 m up to the maximum dimension in 10 cm steps.

## RECKLI HEADQUARTERS
